

Robotics Equipment and Safety Agreement

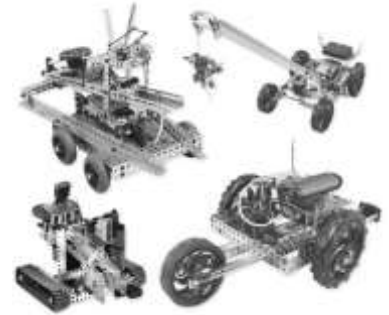

Lebanon High School

2025-2026

Robotics provides many hands-on opportunities to learn and discover. Working in teams to build moving and programmable machines can be extremely fun and rewarding. To avoid injury to people or damage to equipment, it requires everyone to consistently choose safe, respectful and responsible actions.

As a student in Robotics 1, I agree to:

- Follow all safety procedures when working with tools and equipment
- Wear provided eye protection when it is required
- Use all robotics tools, parts, and equipment in a responsible manner
- Maintain complete, organized and functional robotics kits
- Contribute to safe, productive and respectful team environments
- Notify the teacher of any damaged or lost parts as soon as possible

I understand that:

- If I lose or damage a pair of safety glasses...
I will need to provide my own replacement.
- If I lose or damage parts, equipment or tools through negligence...
I will need to pay for their replacement.
- If damage occurs due to manufacturer defect or normal use...
I will not be responsible for replacement.
- If I repeatedly or severely violate the above agreements...
I may be removed from the course.

If I had any questions or concerns about the above agreements, I have resolved them before signing by contacting the teacher at tim.helland@lebanon.k12.or.us or 541-451-8555 extension 1090.
